People Ventures, Inc. Partners with Top 500 Fastest Growing Company

Herndon, Virginia - July, 18 2007 - People Ventures, Inc. partners with Four Points Technology LLC, recently ranked number 14 in Entrepreneur Magazine's latest issue, listing the Top 500 Fastest-Growing Companies in the United States. Four Points Technology is the exclusive Service Disabled Veteran Owned Small Business that has a direct letter of supply for Dell computer products.

People Ventures, Inc. prides itself on the ability to match the expectations of its clients and candidates and is eager to discover, with Four Points, the talent they are looking for. Experienced in working with Government Resellers, PVI anticipates the advancement of their client base. Lee Bell, President and COO of People Ventures, Inc., states, "The future revolves around the development and advancement of new technology. Based in Washington, DC, it is evident how valued government resellers in the IT industry really are. Furthering PVI's relationship with Value Added Resellers can only result in a successful outcome. The candidate is awarded the opportunity to succeed in Washington's most prominent industry and the client is now able to secure additional business with their newly hired talent." Gaining both software and federal experience for a seemingly entry level candidate is a big attraction. Account Manager Alysha Akbar states, "If the position itself is not enough of a draw, the laid-back environment and quality of people will be."

People Ventures, Inc. looks forward to a lengthy relationship with Four Points Technology and hopes to become their sole provider of intellectual capital as they continue to expand.

People Ventures, Inc. is a leader in recruiting services working with candidates and clients across the nation in such fields as sales, marketing, management, engineering, public relations and business development. PVI offers services such as career consulting, interview consulting, resume writing, sales training and sales force outsourcing.
